### EMBOSSING SEALS

Pocket Style Frame  
(Shown with optional soft cushion grip)

Desk Style Frame

When you use a seal to emboss a document, you are performing a traditional act. Your embossed seal guarantees permanent tamper-proof protection of both your seal and the copy over which it is placed. Our most popular embossing seal is the Ideal® Deluxe Series Model MD. This precision pocket seal embosses your NAME, TITLE and NEW HAMPSHIRE crisply on the document. Your seal can also be provided in a modern heavy duty steel desk frame.

### EXPIRATION DATE STAMPS

These stamps are used in conjunction with an embossing seal. They help you to remember your commission expiration date and make a neat professional impression on documents you are called upon to certify. Style "A" is our most popular expiration date stamp and is included FREE as a conventional hand stamp when you order any embossing seal. The expiration date stamp can be provided as a self-inking style, at a reduced cost, if ordered at the same time as the embossing seal.

### NOTARY RECORDS BOOK

The book you can't afford to be without!

Really two complete books in one... clear concise text containing essential information for the Notary, together with well designed spaces for keeping accurate Notarial records. If you are ever called upon to testify regarding any of your notary transactions, you will have all of the relevant information you need right at you fingertips. Explains acceptable notary practices and covers a wide range of notary basics. Avoid embarrassment when you are called up to perform any Notarial function.

## IMPRESSION STAMPS

Style NH1 Stamp

Style NH2 Stamp

New Hampshire law now allows the use of a rubber stamp or an embossing seal by a Notary Public, Justice of the Peace or Commissioner of Deeds. We offer two different impression stamps that satisfy the state requirements. Either one of these designs is available as a self-inking stamp (no separate stamp pad required) or a traditional hand stamp. Please note that these are stamps, not embossing seals. The imprint will not be raised.
