SELF-INKING DIE PLATE DATERS

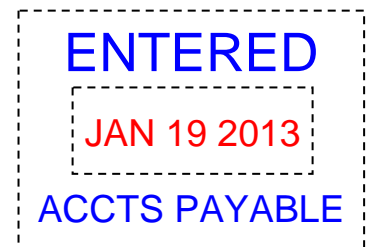

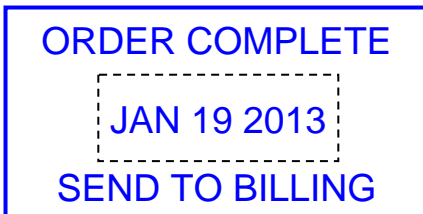

Self-inking die plate daters stamp the month, day, year and your own message all in one operation. Dates are easily changed by engaging the lock and turning the knurled wheels. Several sizes allow you to select the most economical model for the amount of copy or the size of the copy you wish to print around the standard date. With a self contained ink pad, this convenient tool re-inks itself automatically after each impression. Available in a variety of ink colors, as well as two color impressions. These self-inking stamps are an excellent choice for your high volume stamping needs.

TRODAT PROFESSIONAL

Model	Text Plate Size
DPSI5430	1" x 1-5/8"

To order, specify the model number and color of ink pad desired. Print exact copy as you wish it to appear, including punctuation and abbreviations. If you desire a border (box) around the copy, please tell us. If no model is specified, we will fit copy on the model we feel is suitable and provide a black ink pad. FREE refill ink is included with all models.
