Stamps/Seals for Licensed Professionals

We can supply a wide array of stamps and seals for use in professional disciplines. Professional engineers, architects, land surveyors, home inspectors and others. All stamps and seals are produced to conform to individual state requirements . . . **GUARANTEED**. Variations on the types of tools that can be used differ from state to state. Listed below are the types of tools we offer – **an electronic seal file in .jpg format is also available**. Please check the individual state's requirements prior to ordering.

FLASH TECHNOLOGY PRE-INKED STAMPS

Premium quality flash pre-inked stamps can make thousands of impressions (on paper) without re-inking. **Just Press and Print!** No separate stamp pad needed...the ink is in the stamp. Fully re-inkable. Available in Black, Red or Blue ink.

METAL EMBOSSEING SEALS

Your embossed seal guarantees permanent tamper proof protection of both your seal and the copy over which it is placed. The Ideal Trodat® seal crisply embosses your information on the document. It's simple, portable and easy to use.

NOTE: CERTAIN DESIGNS DO NOT LEND THEMSELVES FOR USE AS AN EMBOSSEING SEAL. METAL EMBOSSEING SEALS ARE FOR USE WITH PAPER ONLY!

SELF INKING STAMPS

A self inking stamp does not require a separate stamp pad. The stamp pad is in the stamp. Good for thousands of impressions. The pad can be re-inked or replaced very easily. Available in Black, Red or Blue ink.

CONVENTIONAL HAND STAMP

The conventional hand stamp requires a separate stamp pad. Printing dies compatible with special fast drying inks for use on plastics, Mylar etc. can be provided. **Please specify.**
