## EMBOSSING SEALS

When you use a seal to emboss a document, you are performing a traditional act. The embossed imprint guarantees permanent tamper-proof protection of both your seal and the copy over which it is placed.

Our most popular seal ~ the all new redesigned Ideal Trodat Seal.

Computer engraved dies are mounted in an easily removable, interchangeable die holder. Die size is 1-5/8" round and is made to print from bottom of paper unless otherwise specified. The all new Ideal Trodat Seal is now easier to use, more comfortable to hold and it makes a crisp sharp impression with minimal effort. It can be used as both a pocket and a desk seal. It's extremely ergonomic and lightweight. Comes with a leatherette pouch for storage.

## EXPIRATION DATE STAMPS

Easily remember your commission expiration date and make a neat professional impression on documents you are called to certify.

My Commission Expires January 11, 2024

## IMPRESSION STAMPS

The State of New Hampshire allows the use of either an embossing seal or an impression stamp for the Notary Public, Justice of the Peace or Commissioner of Deeds. Each type of stamp must contain certain specific information as required by NH statute, including name, type of commission, New Hampshire and the expiration date of the commission.

We offer two formats for each discipline that satisfy the state requirements. Either format is available as a conventional hand stamp (which requires a separate stamp pad) or a completely self-inking (no stamp pad needed) unit.
