5	23456		Deep Engraved Characters on Every Band

Band numbering stamps are perfect for stamping batch, code, lot, production, serial or any identification number on a wide range of products. Regular and self-inking styles are available.

Deep molded figures on extra strong vulcanized bands are easily revolved by turning knurled wheels to any desired setting of the numerals on the printing bridge. Characters are always legible and align easily for correct marking.

Each band contains 13 characters, except No. 5 which contains 12. Stock letter bands (A-M or N-Z) may be inserted into any stamp in lieu of figure bands at a slight additional cost.

Ordering Instructions: Please order by size number, choose type face desired, and specify how many bands are needed in the stamp. Self-inking styles may not be available in all combinations, please inquire.

MADE-TO-ORDER SPECIAL BANDS

When the need arises for stamping special information, figures, symbols or words not available on stock band stamps, special band stamps are a practical and inexpensive solution to the problem. Special bands can be made in any size of type to show words, phrases, figures, symbols or codes. Special bands can be assembled in combination with stock bands in all popular frame sizes. Please e-mail, fax or call with your requirements. Be sure to include size of characters and to show exact copy desired for each band wanted.
